

Rosanna Granata <rgrana3@uic.edu>

to Rosemarie, Muna, Betul, me

Hi all!

So I reached out to Monika about the Skype. I will let you know what she says. I have another person I might try as well but if anyone else has contacts from previous students, please let me know.

Re: the week, a few things:

1) We had discussed maybe trying to find an employer that is accepting applications for open internships or jobs. It would be nice if the week includes something that is job/internship related. I will let you know what we can do with Betul's contacts to make happen.

2) Just to clarify, the alumni event is alumni only, right? Will we need to get some AIChE members to volunteer?

3) Are we calling this week ChemE week (i like it)? Are we thinking about making this an annual thing?

I also just wanted to say that leaving the meeting Friday, I was greatly impressed by all the amazing energy and hard work that you all are putting forth. I am so grateful of being able to witness the amazing work of the Engineering department. I always have nothing but great things to say about all the work that Rose has been putting forth but had no idea all the amazing stuff Alan and Betul have been doing.

I did also want to mention that we talked about so many great things. Three things in particular, I think, might deserve a separate follow up meeting:

1) Alumni Programs (how do we sustain alumni buy-in - which supports internships/jobs/grants/donations/reputation/department morale/etc etc)

2) Career Services (how do we get our students to be aware of the internships and jobs on the website and how can we make sure they are aggressive in opportunities- also important for the success of the department)

3) Fall Forum/Conference Event- If we want to have a day long event that will include seminars and a specific career fair we will need to start planning and acquiring support. (Question- How can we get students to go to the event instead of class? We might not be able to have any influence over other departments but if we have the date ahead of time, maybe we can convince our own people? this would be a buy-in/morale/reputation/etc etc- thoughts?)

Please advise.

Thanks much!

-Rosanna

Subject: Re: ISPE Event- ChemE week

Hi all!

So I reached out to Monika about the Skype. I will let you know what she says. I have another person I might try as well but if anyone else has contacts from previous students, please let me know.

Re: the week, a few things:

1) We had discussed maybe trying to find an employer that is accepting applications for open internships or jobs. It would be nice if the week includes something that is job/internship related. **This can also be addressed with the new Career Spot Light bulletin board**

2) Just to clarify, the alumni event is alumni only, right? Will we need to get some AIChE members to volunteer? **It seemed like the idea for this event at the end of the semester. That way they can meet one another. We briefly talked about presenting Dennis O'Brien from Jacobs Consulting with a UIC Champion Award for his years of service to the department.**

3) Are we calling this week ChemE week (i like it)? Are we thinking about making this an annual thing? **I think having annual events is the way to go, it is easier in the fall and ChemE week in the spring folks can plan on it.**

1) - Oh good! We have the bulletin board happening! That's wonderful. I was referring to an event like the Suncoke one. If it's not possible, I understand but additional events would work together to get more of these sort of events (where a company comes on campus at a scheduled time for a presentation about their company and what they do along with accepting applications).

2 and 3 - Sounds good

Thanks again!

ISPE Event- ChemE week - zdunek@uic.edu - University of Illinois at Chicago Mail

to Rosanna, Rosemarie, Muna, Betul

Hello all,

I will discuss the ChemE week with Professor Berry tomorrow at the ChE executive committee meeting. A couple of clarifications; we tentatively want to plan 4 events correct?

They are:

Plant tour

Alumni/student event w/ChE dept award

Skype w/alumni

Recruitment (job/internship related)

Thanks,

Alan
