

Undergraduate Committee Report: Faculty Meeting, September 13, 2019

1. Fall Semester Enrollment and Recruitment Activities:

- a. Enrollment: 265 total, 41 Freshmen 25 Transfers
- b. Open House Saturday September 21st
 - i. Presentations and demonstrations in EIB
 - ii. Need ChE demo volunteers (Shafigh, Bilgin, Berry, Behura, Sharma, ChemE car, other?)
 - iii. Need UG student volunteers (UIC AIChE)

2. Chemistry Course Changes

GENERAL CHEMISTRY/ORGANIC CHEMISTRY: Result will be 2 credit deficit in our program

CHEM122/3: General Chemistry I & General Chemistry Lab I (5 credit hours) will become two courses that separate the lecture and lab. CHEM122 will be retitled "Matter & Energy" and offered as a 3-credit hour lecture + discussion. CHEM123 will be retitled "Foundations of Chemical Inquiry I" and offered as a 2-credit hour lecture + laboratory. CHEM122 is eligible for enrollment based on the chemistry placement exam or credit in CHEM101. CHEM123 requires credit or concurrent enrollment in CHEM122.

CHEM124/5: General Chemistry II & General Chemistry Lab II (5 credit hours) will become two courses that separate the lecture and lab. CHEM124 will be retitled "Chemical Dynamics" and offered as a 3-credit hour lecture + discussion. CHEM124 will be retitled "Foundations of Chemical Inquiry II" and offered as a 2-credit hour lecture + laboratory. CHEM124 requires credit in CHEM122. CHEM125 requires credit or concurrent enrollment in CHEM124 AND credit in CHEM123.

CHEM232: Organic Chemistry I (4 credit hours) will be retitled "Structure & Function" and offered as a 3-credit hour lecture + discussion. CHEM232 requires credit in CHEM122.

CHEM234: Organic Chemistry II (4 credit hours) will be retitled "Chemical Synthesis" and offered as a 3-credit hour lecture + discussion. CHEM234 requires credit in CHEM124 AND credit in CHEM232.

PHYSICAL CHEMISTRY:

CHEM 342 Physical Chemistry I will be offered only in the Fall Semester starting Fall 2020

CHEM 346 Physical Chemistry II will be offered only in the Spring Semester starting Spring 2020.

The Chemical Engineering Course Flowchart will be revised with the CHEM 342/346 changes

3. UG Activities this Semester

- a. AIChE national meeting
- b. ChemE car
- c. CHE Industry Day: Friday October 18th
 - i. Please announce in courses

4. ABET Preparation for Fall 2020 Review

- a. Self-study report plans, ABET Criteria
- b. Course assessment from instructors
- c. PEO review

see attached AZ

A. Program Educational Objectives

PEO	Category	Description
1	Depth	In engineering practice, advanced study or original research, UIC Chemical Engineering bachelor's degree graduates will be effective in applying fundamental principles, scientific knowledge, rigorous analysis, creative design, and conceptual innovation.
2	Breadth	Based upon mastery of engineering in a broad, societal context, UIC Chemical Engineering graduates will have successful careers in the public or private sectors, or in the pursuit of graduate education.
3	Professionalism and Service	In the service of industry, government, the engineering profession and society at large, graduates will function effectively in the complex modern work environment with clear communication, responsible teamwork, and high standards of ethics, professionalism, safety and protection of the environment.
4	Life-Long Learning and Leadership	Based upon a rigorous undergraduate program that is innovative, challenging, open and supportive, graduates will enhance their skills and knowledge through life-long learning and demonstrate professional leadership.

The Program Educational Objectives are prominently listed in the “Objectives and Outcomes” link on the home page of the departmental website: www.che.uic.edu. Additionally, the PEOs are included in all undergraduate course syllabi, and class time is devoted to explaining how the knowledge, skills and principles developed by the course in question contribute to the professional capacities represented by the PEOs.

Accreditation Road Map

Fall 2020 Semester- Collecting data and closing the assessment loop

1. Program Educational Objectives (PEOs)
 - Map PEOs to the mission statement.
 - Review the PEOs with your external advisory board at least once for the 2019/2020 academic year and other program stakeholders.
 - Collect evidences from your external advisory board (some written feedback or emails). Some ABET PEV asks for it.
2. Student outcomes
 - Use new ABET outcomes.
 - Assess student outcomes at least once in the last two years.
 - Close the assessment loop. I would recommend having a separate report for assessing your ABET outcomes.
3. External Advisory Board (EAB)
 - Meeting Agenda is needed
 - Meeting minutes is needed
 - Action Plan to the EAB main recommendations
4. Exit Survey
 - Conduct the survey at the end of each semester for your seniors
 - Data analysis to find some point of improvements
 - Be sure you close the assessment loop (taking actions to improve)
5. Engineering Ethics
 - Different components of Engineering ethics are needed through the curriculum.
 - Assess engineering ethics at different levels.
 - Close the assessment loop.
6. PEO surveys (Expo)
 - The college has surveyed the EXPO judges for our PEO.
 - Check the data once received for possible actions to change/modify your PEOs.
7. Senior design project evaluation (Expo and faculty evaluation)
 - Senior design project evaluations by the judges need to be used to improve the program.
 - 397- Be sure the faculty advisor assesses your senior design project teams.
8. Curriculum minimum ABET requirements
 - A committee to review ABET curriculum criteria.
9. Academic Advising
 - Student evaluates their academic advisors each semester. Please analyze the data to find point of improvements and be sure you close the assessment loop.
10. Career Advising
 - What do you do in career advising for seniors? Please direct your faculty to spend few minutes during the academic advising time to familiarize the students with the college resources and maybe direct them to any connections they have (or other faculty have) in the industry.

11. Course Evaluation- FPP
 - To close the assessment loop for the course evaluation, the college has added a box/ space where all faculty need to comment in what they could do different to improve their academic advising.
 - Department might take different approach/actions to better close the assessment loop for course evaluation.
12. Course Portfolio
 - You need to collect all your course portfolios either by SharePoint or hardcopies (course binders).
13. Alumni Association
 - Check what data they might have for CoE that could help us in improving our programs.

Spring 2020 Semester

- Writing SSR (Students, Program Educational Objectives, Student Outcomes, Continuous Improvement, Curriculum, Faculty, Facilities, Support, Special Criteria)

Summer 2020 Semester (May 16th to June 15th).

- Writing SSR
- Prepare ABET Portal, if any
- Prepare Quality Room

Deadlines

End of January 2020- Send the RFE

End of June 2020, Submit SSR

Visit is expected between Sep and November 2020
