

Analysis of Question 1 from the Senior Exit Survey

(1.) Based upon your experiences as a Chemical Engineering student at UIC, please rate your
(1 = Excellent, 2 = Strong, 3 = Moderate, 4 = Weak, 5 = Poor)

2020 Survey Results

Students Taking Survey = 68

Scores

SO			
1	1.40	Ability to apply knowledge of mathematics, science and engineering.	
1	1.54	Ability to identify, formulate, and solve engineering problems.	
Average	1.47		
2	1.61	Ability to use the techniques, skills, and modern engineering tools necessary to design and conduct experiments, as well as to analyze and design a system, component, or process to meet desired needs.	
2	1.54	Ability to design and conduct experiments, as well as to analyze and design a system, component, or process to meet desired needs.	
2	1.67	Ability to design a system, component, or process to meet desired needs.	
Average	1.61		
3	1.40	Ability to communicate effectively.	
4	1.30	Understanding of professional and ethical responsibility.	
5	1.45	Ability to function on multi-disciplinary teams.	
6	1.54	Ability to design and conduct experiments, as well as to analyze and design a system, component, or process to meet desired needs.	
7	1.44	Broad education necessary to understand the impact of engineering solutions in a global context.	
7	1.36	Recognition of the need for, and an ability to engage in life-long learning.	
7	1.74	Knowledge of contemporary issues.	
Average	1.51		
	1.75	Overall, do you feel that your undergraduate degree will prepare you for the challenges of the future?	

2016 Survey Results

Students Taking Survey = 56

Scores

SO			
1	1.5	Ability to apply knowledge of mathematics, science and engineering.	
1	1.5	Ability to identify, formulate, and solve engineering problems.	
Average	1.5		
2	1.57	Ability to use the techniques, skills, and modern engineering tools necessary to design and conduct experiments, as well as to analyze and design a system, component, or process to meet desired needs.	
2	1.63	Ability to design and conduct experiments, as well as to analyze and design a system, component, or process to meet desired needs.	
2	1.67	Ability to design a system, component, or process to meet desired needs.	
Average	1.62		
3	1.45	Ability to communicate effectively.	
4	1.26	Understanding of professional and ethical responsibility.	
5	1.39	Ability to function on multi-disciplinary teams.	
6	1.63	Ability to design and conduct experiments, as well as to analyze and design a system, component, or process to meet desired needs.	
7	1.46	Broad education necessary to understand the impact of engineering solutions in a global context.	
7	1.4	Recognition of the need for, and an ability to engage in life-long learning.	
7	1.85	Knowledge of contemporary issues.	
Average	1.57		
	1.73	Overall, do you feel that your undergraduate degree will prepare you for the challenges of the future?
