

Q9: Department Budget and Institutional Support

Criterion 8. I know finances aren't always within your control and I've been following the real challenges of the UofI system over the past few years. Please let Vikas know that I'd like to discuss the outlook for the departmental budget when we meet. I'd also like to know if your department or college has any responsibility for servicing some fraction of the debt for your new building. If so, what are the plans for doing so.

Professor Vikas Berry, Department Head will discuss this question with you during your meeting on Monday, October 19th.
